

# FRIENDSHIP BRACELETS

# FRIENDSHIP BRACELETS

## Materials:

- Elastic Bracelet String Cord
- Acrylic Vowel Letter Beads (A/E/I/O/U)
- Acrylic Letter Beads, Round Alphabet Beads
- Acrylic Beads (Heart and Star shapes)
- Seed Beads (24 Colors)
- Clay Beads Bracelet Making Kit

1. Lay out all your materials on a clean, flat surface. Organize your beads and cords, so they're easily accessible.

2. Decide on the design and color scheme for your friendship bracelets. Mix and match different types of beads or stick to a specific theme.

3. Measure and cut a length of Elastic Bracelet String Cord to fit around your wrist comfortably, adding a few extra inches for tying knots.

4. String your chosen beads onto the cord in your desired pattern or arrangement. You can spell out words or names using the letter beads, create patterns with the seed beads, or add accents with the acrylic heart and star beads.

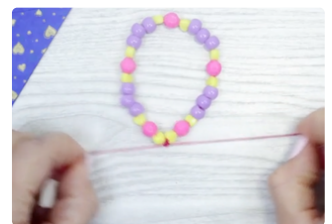

5. Once you've finished threading your beads, tie the ends of the cord securely with a double knot. Trim any excess cord.

6. If you have a Clay Bead Bracelet-Making Kit, you can incorporate some of the clay beads into your bracelet design. String them onto the cord along with the other beads.

7. After tying off the ends of the bracelet, gently stretch it to ensure it's secure and comfortable. Trim any excess cord.

8. Repeat the above steps to make additional bracelets for your friends or to expand your collection.

9. Once your bracelets are complete, share them with your friends as tokens of your friendship, or wear them proudly as colorful accessories!
