

Sharpie Tie Dye

Materials:

- Tote bag/pillow case
- Sharpies
- Rubber bands
- Rubbing alcohol (in spray bottle works best!)

Directions:

1. Create sections on your tote bag/pillow case using rubber bands - spiral, corners, etc.
2. Using sharpie markers, color each individual section a different color (it is important to get all areas - even the hard to reach sections! This will make the outcome a lot more colorful with less white spaces) Basically, the more you color, the better!
3. Spray your entire tote bag/pillow case with rubbing alcohol.
4. Let the tote bag sit for a few minutes before removing the rubber bands.
5. Remove rubber bands and see your finalized sharpie tie dye tote bag!

****Place sharpie tie dye in the dryer for 30 minutes by itself for the color to set!**
